DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

On page 1, after the title, insert:

--CROSS-REFERENCE TO RELATED APPLICATION

This application is a 371 of PCT/JP03/07465 filed June 6, 2003, which is incorporate herein by reference in its entirety.--

Allowable Subject Matter

2. Claims 1-9 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: claim 1 recites, inter alia, "current measuring means for switching and receiving the common mode voltage and the detection voltage in time series, shifting each received voltage to a predetermined low voltage, and respectively outputting low-voltage measurement data obtained by receiving each shifted voltage and subjecting the received voltage to quantization conversion."

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations. Although Nomoto et al. (U.S. 6,992,490) disclose a Ground fault detection device and Jongsma et al. (U.S. 7,046,180) disclose a Analog-to-digital converter with range error detection, they do not disclose the above-mentioned limitations.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
